

Join the Dots

Recruiting & developing **extraordinary** people

Creative and Effective Problem Solving

‘Imagination is more important than knowledge.’ Albert Einstein

Objectives

This programme will enable delegates to discover how the problem solving process works and it will help them solve everyday issues and challenges.

What is it about and what will it do?

The ‘six thinking hats’ is an outstanding and specific method of thinking. The method is powerful because it allows us to see from different specific perspectives helping individuals and groups to shift from their conventional or usual way of thinking.

The six hats concept is that we wear only one hat at any time in the thinking or discussion process so we are able to concentrate on one area at one time.

Who is it for?

Anyone who want to develop their creative thinking and problem solving skills

Outline content

- Problem solving – using a creative process
- Applying the Six Thinking Hats concept to solve problems and issues
- Defining and solving problems and issues
- Creative solutions
